JULY 2022 - NEWS

NEW TILE ROOFING INITIATIVES FOR 2022-2023

The TRI Alliance fiscal year begins in July and we are excited to announce new industry initiatives for 2022-2023. During our May board meeting we discussed new programs and focus for the TRI Alliance in the upcoming year. Learn about the New 7th Edition Florida Manual, Energy Efficiency, our Government Relations Partners and more in the update below.

OSHA PROPOSAL TO REVOKE ARIZONA STATE PLAN

TRIA submitted comments to OSHA on June 24th, opposing its move to revoke the Arizona State Plan. Learn more about the supply chain crisis, the 2022 Spring Unified Regulatory Agenda, Congress's Agenda, Uyghur Forced Labor Protection Act and more via our blog post linked below.

HEAT TRANSFER STUDY: TILE ROOFING VS OTHER MATERIALS

Our plans to quantify the value of tile roofing versus other, temporary roof coverings includes a comprehensive heat transfer study. This initiative will start in the summer with the construction of the first of a

total twenty roof decks that will be constructed across the country in each of the climate zones. Learn about the roof decks, aim of the study and upcoming dashboard via our blog post below.

TILE ROOFING REPAIR AND REPLACEMENT GUIDELINES COMING SOON

In support of our efforts to tackle the pervasive insurance fraud issues currently under the microscope in Florida, the TRIA will soon release a Post Storm Event Technical Bulletin with repair and replace guidelines. Created in an infographic format, the guide is intended to provoke dialogue between roofing contractors, adjusters, homeowners and insurance agents about the viability of repairing, instead of replacing a tile roof damaged by hail, or wind.

MANUAL CERTIFICATION CLASSES IN TEXAS, CALIFORNIA AND FLORIDA

We have a great schedule ahead, but be warned, we're working to keep travel and hotel costs within our budget. We'll be filling rooms to 50% capacity, and have less flexibility (as in the past) to add a day when one sells out. If you want to use your free "Member" training, or signup for a class, please register as early as possible to ensure a seat.

MADEIRA CONDOS WIN LUDOWICI'S COMMERCIAL RENOVATION PROJECT OF THE YEAR

TRIA Member Ludowici recently announced the winners of their annual project of the year contest. They are

proud to feature the Commercial Renovation project of the year on the Madeira Condominiums in Marco Island, FL. The prior roof was failing imported clay tiles that experienced a lot of damage from one of the recent hurricanes. The owner wanted to go back with a time that had a much higher breaking strength that would perform better in high wind conditions.

INDUSTRY NEWS

Redland Clay Tile, following architectural and design trends, has created its new color: "Modern Carbon". Dark toned colors are trending in the Architectural world and they have created their "Modern Carbon" color roof tile to create the contrast in roof blends and facades that are being pursued today.

A special thank you to TRI Alliance Director, John Campbell as he attended his first NRCA board meeting in July at their Mid Year Committee Meetings. We value our partnership with NRCA and look forward to working together in 2022-2023 on our common interests.
