

## Free Manual Overview and Hands-on Training with the FRSA/TRI Florida High Wind Installation Manual & Adhesive Manufacturers

**August 8th, 2018, 9:00 am – 2:30pm**

**Location:** FRSA  
7071 University Blvd  
Winter Park, Florida 32792  
(407) 671-3772 ext. 100

Continental breakfast and lunch will be provided on-site.

**Register at:** [www.tilerooting.org](http://www.tilerooting.org)

**FRSA/TRI High Wind Tile Installation Manual Reiew:** The Tile Roofing Institute will begin the day with an overview of the revised Revised 5th Edition manual. For those previously certified this is an opportunity to renew your TRI High Wind Manual Certification (see below).

**Foam Adhesive Training and Single Component Certification:** Next will be a presentation and training from single component adhesive manufacturers, Tile Bond Foam Adhesive and Polyset RTA-1. Following that will be an overview of Polyset AH-160 two-component adhesive systems. We'll use small mockups for the certifications sessions so it will be a great opportunity to learn proper techniques for a variety of details. Manufacturer representatives from the tile and adhesive companies will be on-site to answer questions.

**CE Credits** - Attendees can earn 2 General CE Credits. In order to receive the credit you must include your Florida License number when you register.

**Pre-registration is required due to limited seating – RSVP for the free event at [jjensen@tileroofing.org](mailto:jjensen@tileroofing.org)** (If you want to re-certify, see below.)

**Certification Renewal** - If your certification has recently expired or is about to expire, you can attend this class, take the 15 question renewal test and extend your TRI Certification another 2 years. **The renewal fee is \$129.00 and includes a copy of the manual and lunch.**

**Pre-registration is required. Register and pay on-line at:** [www.tilerooting.org](http://www.tilerooting.org)
