Installation Manual Certification

The Installation Manual Certification class is for experienced and entry level roofers, inspectors and industry professionals who want to solidify their knowledge of the TRI Concrete & Clay Roof Tile Installation Manual standards. Each attendee will receive a copy of the code approved manual. The class will cover required and optional installation practices with a special section on Title 24 compliance. Pre-registration (\$299) is required. The “member rate” (\$199) is available to members of any roofing or home inspector association (SDRCA/CREIA/ASHI etc.). Upon completion of the class and after passing a 50 question multiple choice test, your company will be able to market this knowledge using the TRI Certification logo on your website, letter head etc.
